

Food Service Black Slide N Seal 5 gal

Beverage Dispenser, Each:

This Beverage Server is the professional's choice for a well-designed, hard-working drink dispenser that performs as expected. The unique leak-proof lid design glides shut and closes tight, eliminating troublesome latches that tend to break over time. The tough polyethylene shell and polyurethane insulation allows it to hold temperatures for hours longer than traditional beverage dispensers. The molded-in handles facilitate transportation. For a secure tamper-proof closure, a lock can be placed through the molded-in tag hole. NSF. (*Item #105653*) w26
